

# MANAN PATEL

manan@manpatel.com · +91 9173623029 · <https://manpatel.com>

## EDUCATION

### SilverOak University

Bachelor's Computer Engineering

2020 - 2024

### Karmachari Sikshan Tirth

High School Higher Secondary Certificate - Gujarat Board (HSC)

2018 - 2020

## EXPERIENCE

### Infividhya

Full Stack Development Intern

Jan 2024 - Aug 2024

- Collaborated with a cross-functional team in an Agile environment to design and develop full-stack web solutions, ensuring scalable and maintainable codebases.
- Built secure REST APIs and integrated third-party services to enhance product functionality.
- Enhanced front-end performance by resolving critical bugs, improving responsiveness, and ensuring a seamless user experience.
- Participated in code reviews, and feature planning to deliver high-quality software on schedule.

### MaxGen

Django Intern

Jun 2022 - Jun 2022

- Gained hands-on experience building web applications with Django and Python.
- Worked on CRUD functionality, template rendering, and database operations.
- Learned best practices for writing clean, maintainable backend code.

## SKILLS

Programming & Scripting:	JavaScript, TypeScript, Python
Frontend Development:	React.js, Redux, HTML, CSS, Tailwind CSS
Backend & Databases:	Node.js, Express.js, Django, MongoDB, PostgreSQL, RESTful APIs
Deployment & Tools:	DigitalOcean, Docker, Postman, Jest, Git, GitHub

## PROJECTS

**Furnishly – Full-Stack E-commerce Platform** *React 19, TypeScript, TanStack Router, TanStack Query, Redux Toolkit, Tailwind CSS, Shadcn UI, Node.js, Express.js, MongoDB, Better Auth, Stripe, RESTful API, Axios, Zod, React Hook Form* <https://furnishly.online>

Designed and developed a production-ready furniture e-commerce platform with a modern tech stack.

Implemented secure authentication, cart and wishlist management, user profiles, and Stripe-based checkout.

Built a scalable backend API with error handling and real-time data updates. Deployed for public use with optimized performance, responsive design, and seamless end-to-end user experience ensuring reliability under high traffic loads.

**Jobify – Job Management Application** *React, Node.js, Express.js, MongoDB, JWT, Axios, React Query, Styled Components, RESTful API, Express Validator* <https://github.com/Mananp1/jobify>

Developed a full-stack job tracking application that allows users to manage job applications with advanced search, filtering, and analytics. Implemented JWT authentication, role-based access control, data visualization with charts, and responsive UI for a seamless user experience. Backend APIs designed for scalability and secure data handling.

**ThinkPad – Full-Stack Notes Application** *React 19, Vite, Tailwind CSS, DaisyUI, Node.js, Express.js, MongoDB, Auth0, JWT, RESTful API* <https://github.com/Mananp1/thinkpad>

Built a secure notes application with user authentication, real-time search, and responsive design. Integrated Auth0 for authentication, JWT for API security, and optimized MongoDB queries for user-specific data isolation. Designed a clean UI and deployed scalable backend services with proper security and error handling.

**Event Manager – Event Booking Platform** *Node.js, Express.js, MongoDB, EJS, Google OAuth, Passport.js, Stripe, Nodemailer, RESTful API, MVC Architecture*

<https://github.com/Mananp1/event-manager>

Developed a full-stack event management system enabling event discovery, registration, and admin-level event control. Implemented Google OAuth for authentication, Stripe for payments, automated email confirmations with PDF invoice generation, and an admin dashboard for CRUD event management. Delivered a responsive, user-friendly interface for seamless event browsing.
